

# EUCISE2020

## Work Package 10: «*Standardization and IPR Proposal*»

B. Wehner, FGMSSC, WP 10 leader

*Brussels, 21 June 2018*

EUCISE2020 received funding from the European Union's seventh framework programme under grant agreement no: 608385

## Objectives for Technical Standardization:

*Define new technical standards for the components of CISE, including the protocol stack, the semantic and data model specifications, the core and common services.*

## ISG State of Play

**Step 1:** Create an ISG founding group of at least 4 ETSI members

- Founding members identified
- First ISG chair identified

**Step 2:** Draft Membership Agreement and Participant Agreement

- Standard legal part
- Scope of work
- Work plan

## ISG State of Play

### Step 2: Draft Membership Agreement and Participant Agreement

- Standard legal part
  - IPR issue investigated
  - No deviations from standard legal part identified
- Scope of work
  - Common/core services defined
  - Data model to be included
- Work plan
  - Initial workplan set up

## ISG State of Play

**Step 3:** Review of the agreements with ETSI experts prior to submission

➤ First revision completed; amendments required

## ISG State of Play

### Step 4:

- Formal submission
  - ISG proposal prepared by ISG founding members with support of ETSI experts
  - Notice by founding members to ETSI Director confirming support
  - Submission of the signed membership agreement

### Step 5:

- Approval of the ISG proposal by ETSI Director
