

EUCISE 2020

# EUCISE2020 BG node/adapter results, experience & recommendations

EUCISE2020 VIP Day Italia  
Peter Kirov  
Bulgarian Maritime Administration

EUCISE2020 has received funding from the European Union's seventh framework programme under grant agreement no: 608385

# RESULTS

## Installation and configuration of national node Type C

## Design and development of national EUCISE2020 LS adapter

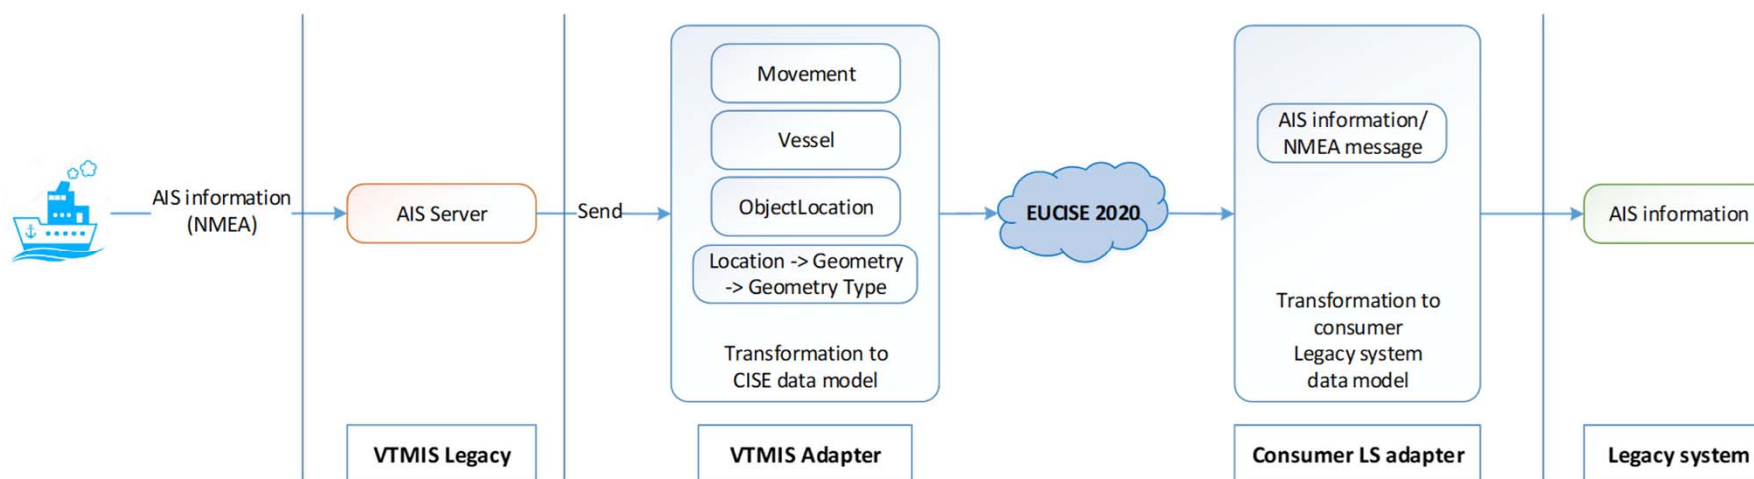

EUCISE2020 has received funding from the European Union's seventh framework programme under grant agreement no: 608385

- Services provided by BG LS

EUCISE2020 has received funding from the European Union's seventh framework programme under grant agreement no: 608385

EXPERIENCE Demonstration phase was carried out with the following elements:

- Design and developing of EUCISE2020 national unclassified adapter;
- Deployment software for the EUCISE2020 national adapter;
- Ensuring the necessary ICT infrastructure (server and network components);
- Network services for connecting the EUCISE2020 national adapter to the EUCISE2020 network;
- Engineering services for connecting and integrating the national system VTMIS included in the demonstration phase of the EUCISE2020 project through the national EUCISE2020 adapter;
- Engineering services for connecting and integrating the national EUCISE2020 adapter with the EUCISE2020 nodes through which the final link to the EUCISE2020 network has been completed;
- Technical assistance services during the demonstration phase of test exchange and validation of information.

EUCISE2020 has received funding from the European Union's seventh framework programme under grant agreement no: 608385

## RECOMMENDATIONS:

- **SYSTEM STILL NOT STABLE ENOUGH**
- **NODE UPGRADES**
- **LC UPGRADES**
- **INTEROPERABILITY & LS UPGRADES**
