EUCISE 2020

## CISE OBJECTIVE

CISE is promoting a voluntary and decentralised framework for these exchanges. The commitment of the Member States as information providers will be essential for the effectiveness of CISE.

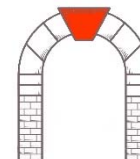

# Responsibility to share

- Change the scope
  - Own and share or not information
- **TO**
  - The production and fusion of information
  - Each actor is a committed part of the production process
- Difficulties
  - Judicial secrecy
  - Business secret
  - Cultural and intrinsic factors

# Responsibility to share

- Application of the principle of solidarity TFEU Art 222

*“This principle means that an individual in possession of an information is responsible for disseminating it to any person who may have a legitimate use for it, and would be liable if any damage occurred as a result of the non-distribution”.*

- Principle of need to know (restrictive)
  - Institutional regulations
  - Verification of legitimate interest
  - Official's arbitration
  - Inefficient

EUCISE 2020

Puertos del Estado

# Responsibility to share

- Required actions:
  - New interpretations of rules and regulations.
  - Implement methods and technical solutions IOT control the accomplishment of this politic
    - Stablish Audits
    - Quality and Quantity of the information
  - Therefore we need to determine the proper organization to organize and evaluate the control.
- Summarizing: Establish the reasons for not to share
